Match-total goals: both teams combined — weekend of 17–18 October 2026

Reading confirmed by you: OVER side = the two teams together score a **total of 2 goals or more**; BELOW side = the two teams together score a **total of 3 goals or below**. This replaces the earlier single-team sheet. A total of exactly 3 goals satisfies both descriptions, so the two lists are alternatives, not a combination bet.

Not copied from any prediction site. Each team's expected goals are computed here from real events only (goals scored/conceded this season, league goals-per-match, venue, confirmed news). Match-total expected goals = home xG + away xG, total goals treated as Poisson. **77 matches evaluated. Confident picks only** (over: P(total ≥ 2) ≥ 85%; below: P(total ≤ 3) ≥ 85%); anything with doubt is dropped. The 'more than 2' column (P(total ≥ 3)) is shown in case that stricter line is wanted. Analysis only, not betting advice.

OVER — both teams together score a total of 2 goals or more

#	Match	P(total 2+)	Match xG total	Also: P(more than 2)	Real events behind it
